No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

Sequence 4, Application US/07743357
Patent No. 5858646
GENERAL INFORMATION:
APPLICANT: KANG, YONG C.
TITLE OF INVENTION: Polypeptide having immunological
TITLE OF INVENTION: activity for use as diagnostic reagent and/or vaccine
NUMBER OF SEQUENCES: 22
CORRESPONDENCE ADDRESS:
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         ----cccagcagcagaaccgcgcccaacagccccaccagc 303

Sequence 8. Application US/07743357

Patent No. 5858646

GENERAL INFORMATION:

APPLICANT: Kang, Yong C.

TITLE OF INVENTION: Polypeptide having immunological

TITLE OF INVENTION: activity for use as diagnostic reagent and/or vaccine
NUMBER OF SEQUENCES: 22

CORRESPONDENCE ADDRESS:
ADDRESSEE: KIRBY EADES GALE BAKER

STREET: Box 3432, Station D

CITY: Octawa

STREET: Ontaxio
                                                                                                                                                1998

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                   gtcgacgccaccatggccga.......gggctagcaccggtgaattc 2469
